Physical Properties	Appearance	Liquid
	Color	Clear
	Fragrance	None
	pH	7
	Shelf Life	Minimum 1 Year
Packaging	Primary Packaging	12/32 oz.

## PRODUCT SALES SHEET

### Technology

Phytology Technology is a revolutionary technology that relies on using bioflavonoids and plant extracts that create a synergistic reaction between natural-organic acids and natural-organic sugars and, when combined, produce extremely powerful cleaning agents. Until recently, antibiotics, pesticides and other hazardous chemicals were considered to be the answer to cleaning and sanitation problems. Not any longer! Phytology Technology has been incorporated into state-of-the-art products that naturally eliminate harmful bacteria, obnoxious odors and organic stains.
